Why Borsheims?

What are a few of the best decisions Warren Buffett has ever made? The gifts he purchased for the special people in his life. At Borsheims, we agree. Investments are much more than monetary gain. They are about the value they add to your life.

Whether it is a gift of love, celebration or achievement, a gift inside a Borsheims' silver box with a burgundy ribbon will always be treasured by a recipient. Conventional wisdom would say, it's not easy for an independent jewelry store situated in Omaha, Nebraska, to attract the world's top designers—but that is just what we've done. Thanks to our 100-year-old history, our loyal customers, our great reputation, and our good fortune of being part of Berkshire Hathaway, Borsheims has long been home to many of the world's top jewelry, watch and fine gift designers.

We are privileged to share in the special moments in our customers' lives. We will treat that privilege with the respect and importance it deserves. And we've been doing that for over a century.
